"From Sinatra to Simon: Images of Aging as Reflected in Popular Songs"

Speaker: Gail S. Eisen, Ph.D.

- What messages have popular songs been sending to us about the aging process?
- How do popular songs shape our ideas about what it is like to grow older?

Please join us as we listen to a sampling of popular songs from several decades that convey themes on aging and images of the life-cycle. Lively discussion and analysis of major themes will follow.

Dr. Gail S. Eisen is a consultant in the psychology of aging. A former Fulbright Senior Scholar, Gail has taught at UCLA, the University of Michigan, California State University, and universities in Kenya, Bulgaria, Egypt, Israel, and India. She has presented her inter-disciplinary seminars for an array of Fortune 500 companies, non-profit agencies, community groups, and regional counseling centers. Please join us for a stimulating evening!
